

Njombe Filling Station Company Limited (NFS)

PROFILE

Njombe Filling Station Company Limited

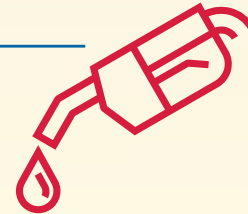

Njombe Filling Station is a limited business entity operating in Tanzania since 2004.

Its main areas of speciality are:

- Retail & Wholesale of Petrol, Diesel and Kerosene
- Fuel Tank installations
- Liquefied Petroleum Gas Sales and distribution
- Transportation
- Lubricants Sale

Njombe Filling Station (NFS) headquarters is in Njombe and also has Administrative offices in Dodoma and Dar es Salaam.

The company has a capacity of 500 personnel deployed around the country running day to day activities of the business.

Retail & Wholesale of Petrol, Diesel and Kerosene

Njombe Filling Station (NFS) is a full-service petroleum distributor to businesses, government and industrial plants in Tanzania. This is both in retail and wholesale depending on the capacity and request of the user.

Wholesale Business: NFS imports wholesale fuel (Petrol & Diesel) in accordance with government regulations. The fuel is stored in different depots in the country. NFS goal among others is to built its own depots.

Petroleum products are supplied and distributed through NFS chain of filling stations across the country with presence in Dodoma, Singida, Shinyanga, Mwanza, Iringa, Njombe, Mbeya, Songwe, Ruvuma, Lindi , Mtwara, Dar es Salaam and still counting. This marks a total of 28 terminal facilities around the country making it effective petroleum product distribution in Tanzania.

Pump Services at NFS are 24 hours daily through out the week with retailing at government set prices.

Fuel Tank installations

Following rapid network growth and demand of petroleum products, Njombe Filling Station (NFS) ventured into Fuel Tank Installations. This is for reserves and proper storage and easy distribution access of the petroleum products since NFS handles this products in bulk.

Installations are done to conform with international standards also adhering to the standards and regulatory measures set by the government through the Energy and Water Utilities Regulatory Authority (EWURA).

Liquefied Petroleum Gas

Liquefied Petroleum Gas products are distributed through our Filling stations Network. NFS has majored in Oryx brand gas products both as retail and wholesale distributor.

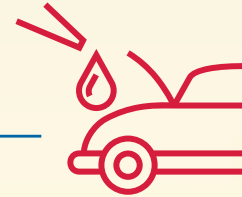

Petroleum Transportation

As part of our speciality we transport petroleum products in bulk. NFS has a fleet of 40 trucks with 35,000-litter aluminium tankers that enable transportation and distribution of petroleum products around the country and also to the neighbouring country Rwanda.

The truck fleet is properly managed making NFS efficient and reliable in terms of service delivery to our clients.

Lubricants

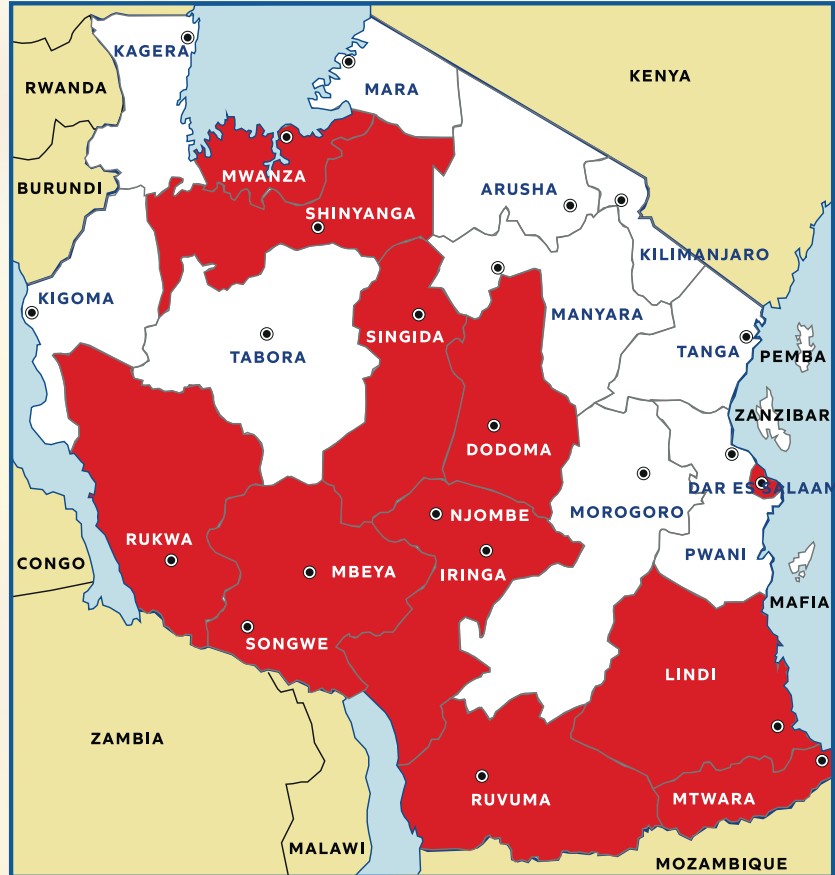

This is an another important component of NFS business. Lubricants are a daily necessity to the automobile industry. NFS has taken a lead to ensure lubricants are available at all their filling stations making it more accessible to customers.

With lubricants NFS sales and distributes Total products - a reputable brand in the industry.
